SUMMARY

I am a self-motivated learner currently enrolled in the Saylani Mass IT Training Program, focusing on the MERN stack. I have a strong foundation in HTML, CSS, JavaScript, Firebase, React.js, and Redux. My goal is to enhance my skills through practical experience and build a solid foundation for my career. While I do not have any professional experience yet, I am ready to take on new challenges and explore opportunities

SKILLS

HTML5

CSS3

JAVASCRIPT

REACT JS

EDUCATION

Saylani Mass IT Training Program
Mern Stack Development

Govt Degree Collage Asifabad
Intermediate

PROJECTS

- **Chat App**

Developed a React.js and Firebase-based chat application with real-time messaging, contact management, group creation, member management, and user profile functionality

- **E-commerce Website**

Built an e-commerce platform using React and Firebase. Includes an admin dashboard for managing categories, products, orders, and users. On the user side, features like favoriting items, adding to cart, and order submission are available

- **Blogging Website**

Developed a blogging application using HTML, CSS, JavaScript, and Firebase. Users can create, edit, and delete blog posts, view all blogs, and update their profiles.

- **Quiz App**

- **Weather App**

- **Todo List**
